Occupational Safety and Health Committee

Mission

To provide a value-added network for industry professionals in the fields of safety, industrial hygiene, and occupational health. This group assists in the development of specific industry positions on related public policy issues for the safety and health of the industry's most important asset, its employees. The Committee also manages/facilitates a variety of subcommittees and task forces dealing with: Accident Data, Industrial Hygiene, Manufacturers, OSHA Reform, Power Generation.

Goals & Objectives

- Provide regulatory and legislative advocacy on key issues involving safety & health
- Monitor and review the status of OSHA regulations and standards
- Represent the industry on issues before OSHA in the formal hearing process
- Federal rule interpretation and compliance assistance
